Dear Sirs;

We received the four pieces of number
Thank you very much for it.

594

We herewith send you a newly improved Carbon-Shinai with
threads imbedded in the carbon cores.

Needless to say, we can not guarantee the absolute safety in
using even with this improved one, so we have to ask you to check
the shinai when using whether or not one of four pieces is broken.

When it is broken, then please stop using it immediately and
replace it with a new piece. And when the surface plastics is
abraded in using and the carbon core is exposed, then please do
the same thing as above.

We wish this shinai could be your favorite.

Lastly we wish you successful Kendo.

Yours Faithfully,

Teiichi Hasegawa
President
