DAN EXAMINATIONS

1986-04-10

Dear Sir,

Included are the swedish applications for the Dan examination in London the 24th of April.

I am aware that this application will probably be late in arriving. However this could have been avoided if our organisation had received the information about the examination earlier. It would be helpful if such information was distributed at least two months before the event in the future.

In the information letter, dated 12th of April (?), it is stated that a written test is to be performed. The information about that test is referred to in an attached sheet. But in our letter there was no such sheet. I therefore assume that the written test for the 6th WKC, in Paris, is also valid for this examination.

Yours truly,

Hans Lundberg
