Dear Mr. Demski :

Re : World Kendo Championships/Switzerland

The question about a few W.K.C. participants from Swiss Kendo Federation in regard to their nationality is being discussed again.

In this connection, we understand that you had a discussion with the management of Swedish Kendo Federation right after the 8th E.K.C. in Malmö.

If we are right in this understanding, may we please be informed of the conclusion of the discussion for our information?

Incidentally, we are being appealed by Swiss Kendo Association for an approval of participation of their players who do not have the Swiss nationality.

We are looking forward to your answer to this letter.

Very truly yours,

I Sato

Secretary General
