Dear Mr Raick

Many thanks for your letter concerning the EKF history and our meeting in Turku, Finland.

When I wrote to you that I could ev. come to Finland and meet you there, I was quite unaware about the date of the competitions. Now, when I have been informed about the actual date I must regret but I am that time in Japan and lecture at the Tokyo University. So it is not possible for me to come to Finland.

But please suggest any other solution.

I can also send all the documents in my possession to you but I imagine that you will also converse and discuss with me since there is a lot of historical things wich is not shown in this documents.

What is your possibilities to come and visit med in Sweden?

I am also a traweller myself so we could also meet in Paris or in some other place in Europa.

Please give me your thoughts about this possiblity.

With best regards to you and to the whole Board of the EKF, I wich you succes with your work in Finland

Yours sincerely

Dr. Robert von Sandor
