Dear Sir,

We are very sorry being not able to organise th International Kendo Competition. Please do not think we are not serious! Belive us- we did our best!

Everything was prepared-the hotel, the gym hall-except the invitations. We waited long for your exemption (making you free of tourists taxes). In normal situation when the Sport Authorities agree (they promised to agree) they will send the exemption by telex to Polish Embassy in Stockholm. After that you will be able to take it in a few hours.

Try to understand our troubles. We have not got the Kendo Federation here in Poland. The decision of adjorning the meeting was beyond our controll and it depended on our authorities.

However we had to postpone the meeting we are going to held the international competition very soon- maybe in winter. We hope you will not mind coming at that time. We are not able to give you now the pricise date but we shall inform you as we will know it.

Please excuse us for the whole commotion. At time we hoped to meet you we were able to organise only local meeting, in which took part the teams from Gdynia, Łódz and Warsawa. We feel very disappointed we have lost the chance to meet you but we hope we meet you soon.

Yours sincerely

Andrzej Wszyński
